

les ateliers C de la B are ten days of workshops that focus on dance in the hometown of les ballets C de la B, Ghent. The programme is meant for the local and international dance communities. With an intensive workshop during the day and an evening programme around the studios, *les ateliers C de la B* are a meeting place for experienced dancers and performers from diverse backgrounds. It's a unique occasion to experience the company's methodology and teacher's knowledge.

The programme gives also space for guest contributions from other disciplines and possibilities to share own work/to discover each others work: the studios are available, there is an open stage, pop-up bar, movie nights...

Hoe een lijf zich plooit om toch maar te vertalen waar het geen woorden voor heeft (Joke Laureyns) ...

A quoi se fier quand il fait défaut, le langage? / waarop nog te vertrouwen, als de taal faalt? (Fernand Deligny) ...
